Storm Data and Unusual Weather Phenomena

July 2000

Location	Date	Time Local/ Standard	Path Length (Miles)	Path Width (Yards)	Number of Persons Killed	Number of Persons Injured	Estimated Damage Property	Estimated Damage Crops	Character of Storm
----------	------	----------------------------	---------------------------	--------------------------	--------------------------------	---------------------------------	---------------------------------	------------------------------	--------------------

MINNESOTA, Central and South Central

Lac Qui Parle County 3 S Louisburg	02	0050CST			0	0			Hail(1.00)
Lac Qui Parle County 3 E Cerro Gordo	02	0100CST			0	0			Thunderstorm Wind (E52)
Pea size hail and crop damage also reported at this location.									
Kandiyohi County Sunburg	05	0435CST			0	0			Thunderstorm Wind (E52)
Numerous trees down. One house damage by fallen tree.									
Kandiyohi County 5 E Sunburg	05	0440CST			0	0			Thunderstorm Wind (E52)
Several trees down, one damaged cabin at Norway lake.									
Kandiyohi County Spicer	05	0455CST			0	0			Thunderstorm Wind (E52)
Several residences and vehicles damaged from falling trees.									
Renville County 4 N Olivia	05	0505CST			0	0			Thunderstorm Wind (E60)
Semi-truck blown off the road.									
Stearns County Paynesville	05	0520CST			0	0			Thunderstorm Wind (E55)
Several large trees down.									
Mille Lacs County Princeton Muni Arpt	07	0858CST			0	0			Thunderstorm Wind (M54)
Several large trees down in Princeton. Top of silo blown off									
Sherburne County Zimmerman	07	0906CST			0	0			Thunderstorm Wind (E55)
Large trees and powerlines blown down.									
Sherburne County 2 N Zimmerman	07	0908CST			0	0			Thunderstorm Wind (E55)
Large trees felled.									
Anoka County St Francis	07	0925CST			0	0			Thunderstorm Wind (E55)
Power lines down.									
Anoka County 2 NW Ramsey	07	0930CST			0	0			Thunderstorm Wind (E50)
Several trees down.									
Anoka County Anoka	07	0935CST 0937CST			0	0			Hail(1.50)
Anoka County Blaine to Circle Pines	07	0945CST 0947CST			0	0			Thunderstorm Wind (E65)
Damage survey confirmed downburst initially hit in extreme southeast Blaine, just west of Centennial High School. Damage was produced for about 1/2 mile as it travelled southeast. Hundreds of trees downed, including some on houses and vehicles. Survey revealed that the downburst was embedded within a southeast moving mesocyclone. The downed trees in Blaine were mostly oriented from southeast to northwest, while those in Circle Pines were mostly from northwest to southeast. It is possible (though uncertain) that this mesocyclone was the same one that moved from Little Canada to St. Paul, producing wind damage.									
Anoka County Lino Lakes	07	0945CST			0	0			Thunderstorm Wind (E60)
Hundreds of trees down from the northeast side of Reshanau Lake to Amelia Lake, near Interstate 35E and County Road J. A truck

Storm Data and Unusual Weather Phenomena

July 2000

Location	Date	Time Local/ Standard	Path Length (Miles)	Path Width (Yards)	Number of Persons Killed	Number of Persons Injured	Estimated Damage Property	Estimated Damage Crops	Character of Storm
----------	------	----------------------------	---------------------------	--------------------------	--------------------------------	---------------------------------	---------------------------------	------------------------------	--------------------

MINNESOTA, Central and South Central

was overturned. This was the apparent start of a mesocyclone that produced occasional downburst damage, from White Bear Lake, across Lake Elmo (where it produced a brief tornado - see entry), and into Wisconsin (see Pierce County). Interestingly, the vast majority of the damage was due to winds blowing from southeast to northwest, even though the mesocyclone was travelling to the southeast.

Ramsey County

New Brighton	07	0957CST			0	0			Thunderstorm Wind (E65)
--------------	----	---------	--	--	---	---	--	--	-------------------------

Roof damage to lumber building near I-694 and 35W.

Ramsey County

White Bear Lake to White Bear Beach	07	1000CST 1002CST			0	0			Hail(0.75)
--	----	--------------------	--	--	---	---	--	--	------------

Ramsey County

Little Canada to St Paul	07	1005CST 1020CST			0	0			Thunderstorm Wind (E55)
-----------------------------	----	--------------------	--	--	---	---	--	--	-------------------------

Damage survey showed that an intense downburst-producing mesocyclone moved southeast from Little Canada (near Interstates 694 and 35E) to the east side of St. Paul (the Beaver Lake area). Thousands of trees were down as well as numerous power lines. Many trees came down on houses and vehicles. An unconfirmed funnel cloud was reported just south of Lake Phalen, but there was no indication of any tornado touchdown according to the damage survey. Interestingly, the vast majority of the downed trees were oriented from southeast to northwest, even though the mesocyclone was moving to the southeast. It is possible (but uncertain) that this mesocyclone was the same one that hit Blaine and Circle Pines of Anoka County (see entry)

Ramsey County

White Bear Lake	07	1005CST			0	0			Thunderstorm Wind (E65)
-----------------	----	---------	--	--	---	---	--	--	-------------------------

Numerous large trees down. Major roof damage to residence due to falling tree. Windows broken in several homes. Large signs down at Belair and County Road E.

Ramsey County

Maplewood	07	1007CST 1010CST			0	0			Hail(1.75)
-----------	----	--------------------	--	--	---	---	--	--	------------

Storm Data and Unusual Weather Phenomena

July 2000

Location	Date	Time Local/ Standard	Path Length (Miles)	Path Width (Yards)	Number of Persons		Estimated Damage	Character of Storm
					Killed	Injured	Property Crops	
<u>MINNESOTA, Central and South Central</u>								
Washington County								
Lake Elmo	07	1015CST 1025CST			0	0	2M	Hail(1.75)
Damaged crops include corn, soybean, and various garden vegetables along a two mile path through Lake Elmo, according to the Courier News.								
Washington County								
Lake Elmo	07	1020CST	0.1	30	0	0		Tornado (F1)
Tornado occurred near County Rd. 17 and County Rd. 10. Numerous trees down and a few mobile homes were damaged before tornado moved into an open field. This tornado was produced by a mesocyclone that began producing downburst damage in Lino Lakes and continued moving southeast into Wisconsin (Pierce County).								
Goodhue County								
5 NW Red Wing to 6 SE Red Wing	07	1115CST 1130CST			0	0		Hail(0.75)
Corn stripped in Wacouta, Welch and Florence townships as storm tracked to the southeast.								
Goodhue County								
Red Wing	07	1120CST			0	0		Thunderstorm Wind (E55)
Numerous trees down.								
Douglas County								
1 W Kensington	07	1840CST 1842CST			0	0		Hail(0.75)
Douglas County								
Kensington	07	1845CST			0	0		Thunderstorm Wind (E50)
Trees felled.								
Douglas County								
4 E Kensington	07	1850CST 1852CST			0	0		Hail(1.25)
Pope County								
Farwell	07	1852CST 1853CST			0	0		Hail(0.75)
Pope County								
.2 NW Lowry to .5 NE Lowry	07	1858CST 1910CST	0.3	20	0	0		Tornado (F0)
Touchdown occurred over open field. A few large trees reported down across area.								
Pope County								
2 SW Long Beach to 2 S Long Beach	07	1922CST 1930CST	1	20	0	0		Tornado (F0)
Touchdown occurred briefly on the northwest shore of Lake Minnewaska, then moved onto the lake and dissipated. No damage reported.								
Pope County								
2 SW Sedan	07	1934CST 1940CST			0	0		Funnel Cloud
Though viewed by law enforcement, spotters and storm chasers, there was no touchdown.								
Pope County								
8 ESE Terrace to 8.1 ESE Terrace	07	1955CST 2000CST	0.1	20	0	0		Tornado (F0)
Touchdown developed over open field, no damage reported.								
Dakota County								
Burnsville	07	2240CST 2243CST			0	0		Hail(1.00)
Dakota County								
Apple Vly	07	2245CST 2255CST			0	0		Hail(0.75)
Hail covered the ground.

8.5 NW Granite Falls to Granite Falls	25	1657CST 1725CST	9	167	1	15	20M		Tornado (F4)
		The tornado first touched down in rural Yellow Medicine County, 8 miles west, and 3 miles north of Granite Falls. The tornado lifted before exiting Granite Falls, leaving the most concentrated damage path two miles long, and 500 feet wide, through a primarily residential area of Granite Falls. Most of the damage in Granite Falls was caused by F2 to F3 wind speeds. However, this tornado has been classified as a minimal F4 tornado, based on the twisted wreckage of an overturned railroad car near the intersection of 9th Avenue and 14th street in Granite Falls. 3 W River Falls to 1 N Hager City	07	1105CST 1130CST			0	0	4.5M		Hail(0.88)

Red Wing Republican newspaper reported an approximately two mile wide, 20 mile wide swath of destruction to crops began in the northwest portion of Pierce county (about 3 miles west of River Falls) and ended just north of Hager City. The vast majority of the damage was to corn, soybeans, small greens, and alfalfa crops. About 20,000 acres were lost. Twenty-one square miles were a total loss, and about about 40 square miles had some degree of damage from the windblown hail. Though not certain, it is likely this damage was from the same mesocyclone that produced widespread downburst damage from Lino Lakes, MN to Lake Elmo, MN (see corresponding entries in Minnesota portion).

Pierce County									
3 W River Falls to 1 N Hager City	07	1105CST 1130CST			0	0			Thunderstorm Wind (E55)
		Scattered trees down. Minor damage to barns and outbuildings.
